Salimu Kabogere

Software Engineer
Kampala, Central Region, Uganda

Summary

Software Engineer based in Uganda, currently pursuing a Bachelor of Science in Computer Science at Makerere University. I work on backend systems, mobile applications, APIs, and cloud-based solutions. Currently contributing to AIBOS Uganda as a Software Engineer, with interests in AI integration, cybersecurity, and building secure, useful, well-designed products.

Experience

AIBOS Uganda
Software Engineer
December 2025 - Present (6 months)
Arie Towers, Kampala Uganda

Worked on various projects across the organization and under different teams, with the first one being under Mobile Development using React Native and Expo for Routes, together with the corresponding web application of the same system. Also worked on an AI Video Platform incorporating generating vast videos using different models in a monolith architecture. This also comes with learning a lot from the other team members in the development space.

Equity Bank Limited
Undergraduate Trainee
June 2025 - December 2025 (7 months)
Kampala, Central Region, Uganda

Completed hands-on training in software development and IT support. Worked with FastAPI, Docker, and Git to build and deploy backend services. Supported staff with system troubleshooting, hardware repairs, and secure workstation setup. Gained practical experience in enterprise IT operations, DevOps, and secure coding practices within a dynamic banking environment.

Equity Bank Limited
Intern
May 2023 - August 2023 (4 months)
Ntungamo, Western Region, Uganda

Under the Equity Leaders Program-Gained practical experience in banking operations and customer service. Assisted in handling financial technology applications to improve service efficiency. Supported various administrative and technical tasks within the bank.
